Submitted by Helen Read, ERTC Chair

The ERTC shall have the responsibility of matters related to the development and implementation of educational and research technologies at the University that guide acquisition of information literacy by students and faculty. It shall review and recommend policies and procedures relating to the planning, introduction, and use of campus-wide technologies, including computers, communications, electronic data handling, and instructional media. The committee shall assume

Wendy reported on the successful launch of Brightspace at the beginning of the fall semester. Self-service functions are available for adding teaching assistants to your Brightspace course, creating sandbox spaces, and creating non-credit spaces for co-curricular activity. They have been working on new integrations (Ally, Gradescope, Turnitin). Another ongoing project is to implement a way to push grades directly from Brightspace to Banner. The Center for Teaching and Learning will continue to offer training and support for Brightspace.

Veronika, Max, and Rachel (who subsequently left UVM) visited the ERTC several times throughout the year regarding the upcoming replacement for the MyUVM portal, which is reaching end of life. ERTC members had many questions at the time of the initial presentation in October, and asked to be given access to the test environment. At a subsequent meeting, ERTC members (having tried out the test environment) expressed a great deal of
