

Vermont Poll 2008 Civics I.Q. Frequency Report

Jessica Hyman, Center for Rural Studies, University of Vermont

The 2008 Vermont Poll included seven questions about civic structure in Vermont. Here are the results from the 645 respondents.

Table 1. Listen to the following options and tell me which number most closely matches the percent of Vermont's towns and cities with less than 2,500 people in the 2000 Census?

	Frequency	Percent
10%	26	4.4
25%	131	22.0
50%	164	27.6
(Correct) 70%	194	32.6
90%	80	13.4

Table 2. Which of the following numbers most closely matches the average date of incorporation for Vermont's 246 towns and cities?

	Frequency	Percent
1675	14	2.5
1710	66	11.9
(Correct) 1780		
1860	52	9.4
Total	555	100.0

Table 3. Which of the following numbers most closely matches the total number of all volunteer and paid LOCAL officials in Vermont?

Frequency

Table 4. Please try to name the towns found at each of the four corners of Vermont.

86)

Table 5. Nationally, our division of power in the United States consists of the Executive, Judicial and Legislative branches of government. What boards, committees or officials in your town would be examples of these branches on a local level?

Please give me a local example of the Executive branch.

Table 6. Please give me a local example of the Judicial branch.

Table 7. Please give mR
